Easy to Use • Cost Effective • Easy to Manage

Is Expanding its Partner Program

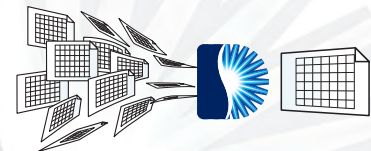

**One of your customer's greatest pain points is budgeting!  
Are you doing anything to help?**

You don't need a Forecaster guru to help your customers replace their spreadsheet budgets!  
Don't waste billable hours wrestling to configure a system, deliver more consulting value and help your customers reduce cost, remove complexity, and improve their budgeting processes.

Dynamic Budgets is a Dynamics GP integrated budgeting solution

- SQL Server based, Microsoft .Net - connected application
- Free from data warehouse and middleware application-server complexities
- Easy to deploy (install and deploy budget templates within 2 hours)

Dynamic Budgets is simple enough for end-users to look up historical details (including sub-ledger) to include in their budgets.

Dynamic Budgets is licensed on a flat-fee model. This makes it vastly more affordable to extend the solution out to the customers' management teams.

Visit [DynamicBudgets.com](http://DynamicBudgets.com) or call 720-515-1565 to learn more about the product and how our partners and their customers are benefiting from this easy-to-use budgeting solution.

# Our Payroll and HR enhancements make a good thing – great!

Make Microsoft Dynamics® GP Payroll and HR more appealing to your prospects *and* more valuable to your existing customers by adding Integrity Data's enhancements to your offering. Microsoft Dynamics® GP Payroll and HR is good at managing payroll and human resources functions. But it could be even better for meeting the needs of today's payroll managers - your customers and prospects.

Imagine if Microsoft Dynamics® GP could automatically e-mail direct deposit and W-2 statements to employees, budget and manage FTEs, allow easy corrections and adjustments to payroll transactions, configure rules

for calculating overtime, track and manage leave benefits. These are just some of the many Payroll and HR enhancements Integrity Data offers.

Our sales and marketing team will help you close the deal. And our support team will provide unlimited partner support after the sale.

*So what'll it be? Good or Great?*

Join with Integrity Data to transform Microsoft Dynamics® GP Payroll and HR from Good to Great!

*Now announcing U-LINC - making workflow virtually anytime and anywhere for Microsoft Dynamics® a reality!*

*Integrity Data provides products and services to enhance Microsoft Dynamics® GP Payroll and Human Resources.*
